New York, NY

2002 Exit Art Gallery
Reactions 911, New York, NY

ARTIST STATEMENT

I am a Digital Impressionist. The fusion of photography and computers allows me to create hybrid art that goes beyond the reproduction of reality, to evoke emotions by means of a personal transformation of representational images.

I am also a colorist. Colors are my private language that I use to create impressions for others to share. My subjects are Tropical Nature and Urban Nightlife. I am as inspired by Caribbean clouds, vivid parrots, and tropical flowers as by exotic people, Nightlife Fantasy and Halloween parades. Starting with photographic images, I paint and enrich both these worlds in dense, hybrid paintings with strong colors and small strokes.

I create hybrid art prints that combine photography and digital painting. These prints are limited edition fine art of archival quality. I use my past experience with drawing, painting, collage, photography and photochemical retouching and I apply these traditional techniques in the digital domain.

I also juxtapose and meld my photographic and digital images in sequences with transitions. I create storyboard timelines, to be projected into large scale slide shows, for a variety of venues including light show projections, sometimes accompanied by music.

NICHOLAS BERGERY / ARTIST
Key West, December 2008

I am a fine Artist who is based in Key West, Miami and New York City.
I create Photography Based Digital Fine Art (Photo or Techno Painting) and
produce Limited Edition Archival Prints and Multi Media Projection Art.
